[IPD Patient]
↓
[Doctor Review]
↓
[Add Final Diagnosis]
↓
[Generate Summary]
↓
[Billing Clearance]
↓
[Approve Discharge]
↓
[Patient Exit]

Notes

- UX flows represent end-to-end user journeys

- Covers Patient, Doctor, and Admin interactions
- Can be converted into flowcharts (Figma / Draw.io / Miro)
- Can be enhanced with decision nodes and error states if needed
